

# Open Prescription Drug Formulary 7/2008

## INTRODUCTION

This condensed formulary is designed to serve as a reference guide and assist in the selection of cost-effective pharmaceutical products. The formulary is not intended to be a substitute for a prescriber's clinical knowledge and judgment. In all cases, the prescriber is expected to select appropriate drug therapy for the individual patient and provide high quality healthcare.

The US Script formulary is administered by WellPoint NextRx. The WellPoint National Pharmacy and Therapeutics Committee will regularly review the formulary to ensure it meets the needs of both patients and providers. Thank you in advance for your cooperation.
